## ABOUT US

VYS is an Italian family holding based in Venice operating for over 40 years, born to supply the mass market, it has since extended its services to include luxury hotels, private villas, and the superyacht sector. Following our success in the superyacht industry, we decided to start to operate with aviation, building ties with the private jet sector.

As we were already supplying the luxury market through provisioners and other intermediaries, we found it easy to step into the aviation sector and open a direct conversation with airports, handling companies, and senior flight crew.

Our headquarters are in Venice, where we have many facilities including warehouses, cellars and our own food processing laboratories working with the different products to prepare and package them as per our customer requirements. We are now in the process of developing new branches in the areas we are already reaching, as well as having distribution platforms with product stocks and our own logistics to directly supply these territories and beyond.

We are used to buying directly from the producers and/or the national importers in all the countries where we have our companies based. We also have our own logistics that include land and sea refrigerated transport. This enables us to provide an extremely efficient service at a very competitive price.

What we offer it is not only a high-quality product and a reliable service at very competitive rates, but also a level of customisation that includes the product selection, preparation, and packaging to satisfy the needs of even the most demanding client.

## WHY VYS

With a vast experience providing the luxury industry with the best products and services, VYS aims to become one of the leading suppliers in the aviation sector.

Our successful recipe has just three ingredients:

### RESEARCH

We search on your behalf for the finest quality products. All our products are sourced locally and the most of them are produced in an artisanal/traditional way so that we can deliver not only freshness but also original/unique flavours to your table. We are supplying as well international brands and products that are part of your day to day life on-board, making it easier for you to feel at home, wherever you are.

VYS are deeply committed to always supplying the best. We are constantly looking for premium national and foreign products, with staff dedicated to analysing the customer needs, researching and selecting the best products worldwide.

### SERVICE

Outstanding service with international deliveries, tailor made packaging, compliance with your food prep specifications, the certainty of having professional advice when required and the cordiality you should expect from your local shop. All of this is made possible by our constant investment in people and logistics, to ensure our customer will have the best experience possible.

With our own logistics including land and water transportation and having long-lasting ties with premium carrier companies, we are able to deliver our products globally. Our fleet of refrigerated vehicles and customized air transport will always guarantee the control and the freshness of the product at every stage.

### COMPETITIVITY

Our competitiveness is generated by having our own logistics and using a short supply chain which enables us to deliver the product directly from the producer to the consumer. This has a direct impact on pricing, reducing the cost of the goods and making our offer appealing to both our customers and other intermediaries.

We have a large portfolio of manufacturers and we are also exclusive distributors for many notable brands. We have built over the years a network of partnerships between international suppliers and manufacturers, aiming to cut out unnecessary intermediaries and reducing costs. This enables us to offer to our customers unbeatable prices and services.

Our dedicated team provides a fast pace assistance service, taking requests 24/7 and assisting the client with tailor-made logistic plans, providing the customer with the maximum possible comfort.
